To whom it may concern,

I am writing to express my satisfaction and appreciation of the service and results given to us by Supercrane Atlantis.

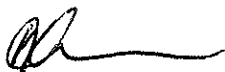

K-Line Industries have experienced significant growth recently. Since calling on the knowledge and experience of Supercrane Atlantis to increase the capacity of our existing manufacturing plant, we have been able to maximise efficiency and complete multiple larger projects simultaneously.

The key points to our satisfaction is the the commitment of Supercrane Atlantis to fulfill our needs & ability to deliver on time.

The quality of service provided by Supercrane Atlantis performed was excellent from enquiry to installation.

I am very happy to recommend Supercrane Atlantis for crane and lifting solutions and wish them all the best in the future.

Best Regards

Bill Larsen

National Sales Manager
